Admission Timelines for Fall Intake
Provided to OIRP by Director, Admission Services.

Below are generalized timelines of the admission process at Carleton University for the Fall intake. For the purpose of supporting OIRP’s Admission Reports, these timelines are helpful in understanding at which points we have increasing confidence for the various indicators throughout the cycle. For example, while there may be Approvals or Confirmations early in the cycle, the indicators stabilize later in the cycle. Please note that year over year trends are based on matching days of the week between the current year and the previous one (e.g., Tuesday of the first week in February); occasionally there is a disruption in the flow of data and comparative differences may be temporarily misleading (e.g., there can be an initial spike in applications in the first couple of weeks in January from the OUAC which may not be matched by day of week).
